

EDUCATION

•B.Tech Computer Science Engineering	2023–2027
<i>Pandit Deendayal Energy University, Gandhinagar</i>	CGPA: 8.63

EXPERIENCE

•Cyber Forensics Intern	June 2024 – Jan 2025
<i>Forensic Knight</i>	Online
– Performed digital evidence collection and log analysis for multiple cybersecurity case investigations.	
– Investigated malware artifacts and suspicious network traffic to support incident analysis.	
•Graphic Designer	May 2025 – Nov 2025
<i>Adorebits Technology</i>	Online
– Designed UI/UX assets and digital creatives using Photoshop, Canva, and Figma for branding campaigns.	
– Created 20+ branding assets and marketing visuals for client campaigns.	

TECHNICAL PROJECTS

•AETRIX — Satellite Environmental Intelligence Platform	
<i>React.js, Spring Boot, FastAPI, PostgreSQL, scikit-learn, Groq API</i>	
– Integrated multi-satellite data (MODIS, Landsat, Sentinel-2) to detect Urban Heat Islands, vegetation stress, and pollution hotspots in 4 Indian cities.	
– Built ML pipelines for UHI classification, NDVI monitoring, and 30-day LST forecasting via FastAPI.	
– Used Groq LLM to auto-generate zone-specific environmental action plans on a React.js dashboard.	
•Swagat Caterers — Enterprise Catering Management Platform	
<i>Django, Express.js, PostgreSQL, HTML, CSS, JavaScript, Bootstrap</i>	
– Engineered a full-stack catering management platform for bookings, billing, analytics, and staff management.	
– Integrated JWT-based role access for admin, manager, and customer modules.	
– Designed bilingual workflows, event scheduling, and reporting using Django, Express.js, and PostgreSQL.	
•Gate Master — Full-Stack GATE CS Preparation Platform	
<i>Django, React.js, SQLite, JWT, Chart.js</i>	
– Developed a full-stack exam preparation platform with mock tests, leaderboards, and study material access.	
– Implemented JWT authentication, protected routes, and user performance tracking.	
– Built analytics dashboards for subject-wise accuracy, progress trends, and student insights.	

TECHNICAL SKILLS AND INTERESTS

Languages: Python (Advanced), Java, C/C++, JavaScript, SQL
Frameworks: React.js, Node.js, Express.js, Django, Flask, FastAPI, Bootstrap
Databases: MySQL, PostgreSQL, SQLite, MongoDB
Developer Tools: Git, VS Code, MySQL Workbench, Postman, Linux Terminal
Cybersecurity Tools: Wireshark, Nmap, Burp Suite, Kali Linux
Coursework: Computer Networks, OS, DSA, DBMS, Cloud Computing, Cybersecurity, AI
Soft Skills: Leadership, Communication, Problem Solving, Team Collaboration
Areas of Interest: Cybersecurity, Networking, Web Security, Data Science, Full-Stack Development

POSITIONS OF RESPONSIBILITY

•Vice President, Society of Mathematics (SOM), PDEU	2025 – Present
– Led planning and execution of academic events, workshops, and competitions reaching 200+ students.	
– Coordinated teams for event management, operations, and student engagement; promoted analytical thinking through mathematics initiatives.	

ACHIEVEMENTS

•DCSC – Drop Certified Security Course	Web application penetration testing and security assessment	2025
•Oracle Cloud Infrastructure 2025 – AI Foundations Associate	Oracle	2025
•GATE Qualified	Graduate Aptitude Test in Engineering (Computer Science)	2026
•Hackathon Winner – AETRIX	National-level hackathon achievement	2026
•Hackathons	Participated in HackOut’25, CodeClash, Sparkathon Converge, ISRO Hackathon	2024 – Present
•Cybersecurity Job Simulations	Mastercard & AIG (Forage) – Risk analysis and threat detection	2024 – 2025
•Society of Mathematics (PDEU)	Promoted from Graphic Design Member to Head and Vice President; led branding and outreach for 30+ technical events	2023 – Present
